7. Install remaining M6 hardware. Install 3/8" Serrated Flange Bolts through the bottom of the main mount plate and into the rear buckle bracket as shown **Figure 7** and **Figure 8** 

Figure 7

Figure 8

8. Tighten all hardware, reinstall metal and plastic bumpers in reverse order and install plow per manufacturers direction.

## After First Time Use

Retighten all hardware as your frame may have flexed and the Plow Mount loosened.
